A COVINGTON man opposes the curfew ordinance on the ground that any parent who can't control his children himself and keeps them at home, has no right to have any, and he is opposed to a municipal or legislative body dictating to him or any other free-born American citizen as to how he should raise his own children.

WILL RESIGN THE GOVERNORSHIP.

The people of Kentucky were evidently surprised on Tuesday at the announcement in the Courier-Journal that Governor Bradley intends to resign the office of Governor in a short time. He says that the duties of the office are killing him and that he intends to resign, regardless of the political consequences.

NOTICE OF CONTEST.

On last Saturday Mr. A. T. Herd, Assistant Secretary of the Republican Campaign Committee, served notice of contest on Hon. W. B. Smith, the only Bryan elector for the State of Kentucky.
There can be but one object in this contest and it must be apparent to any one. The gamblers are the only persons that can possibly be benefited, even should the contest succeed. It looks little even to humiliate to see the Republicans after having just elected a President of the United States now cater to the appeals of gamblers and start out to do dirty work for them, however, the average Republican is not above any little act, and they have never been particular about their associates.

THE NEGRO VOTE.

From an examination of the vote in the States of Kentucky, Indiana, Ohio, West Virginia and Maryland the negro votes in the States named is larger than the Republican majorities in the last November election. It is well known that the negro votes the Republican ticket regardless of the policy advocated by that party. They would have voted for bimetalism just as cordially as they did for monometallicism had the Republican party so declared. It is not principle but party that the negro votes for.

Had the will of the voters in the States named, whose actions were that of judgment and for the best interest of the country prevailed, W. J. Bryan would have been President. A large majority of the intelligent and patriotic citizenship of this country is for true bimetallicism.

It is to be hoped that the negro may yet some day prove himself a deserving citizen and vote for his interest governed by judgment and not prejudice.

FOLLY OF MONOMETALLISM.

We were told by gold bug orators and the daily press generally that there was plenty of money in the country and all that was needed for renewed prosperity was confidence. The persons that advocated bimetallicism contended that more legal tender money and not confidence was the thing lacking. The people, however, voted for confidence and monometallicism. That the policy is wrong has been fully established by the thousands of failures that have occurred since the November election. Hardly a failure has been reported but that the assets of the party or institution failing was from 50 to 75 per cent, greater than the liabilities. Jay Cooke wrote the following letter in 1892:

PHILADELPHIA, PA., Dec. 22, '92.
Editor of the Manufacturer:
Your views on the silver question are, in every respect, perfectly correct, and I say this from an experience of over fifty years in the banking business.

Our statement and the press generally are woefully blind to the effect this opposition to the remonetization of silver is having in our country's prosperity, to say nothing of what is greater, its effect upon the whole world.

It seems inconceivable that when the world is increasing so rapidly in population, in development of every kind, in railroads, manufacturing, and the opening of vast agricultural regions, that the business of the world, by a mere arbitrary decree, should be reduced to a condition of reliance upon gold only, as a measure of value; and, then, in my opinion, we have not yet begun to feel the full weight of this foolish and absurd attempt to bring the world to conform to monometallicism.

The demonization of silver in 1873, although a measure enacted ignorantly, confessed by Congress, was a great crime to civilization and progress; and, further, the vast majority of the people, who are not capitalists, have been reduced in resources and in debt paying capacity to the full extent of the withdrawal of the legal tender silver money.

It is almost laughable, were it not for the daily reading the editors in the daily press of the country, which are in a great majority adverse to the upholding of silver and restoring it to the basis of 16 to 1, and to its former position as a legal tender, debt-paying metal.

Silver, for all time, has held place far above that of gold in the money transaction of the world. Amongst at least two-thirds of the population of the world it is now the sole currency. Now in the fulness of time, when the world is full of activities and development, instead of making a legal tender basis of silver and gold each, the wisest of this day have deliberately destroyed one half of this necessary base. Was there ever anything so folly of folly?

The newspapers seem to be doing all they can to create a panic by declaring that the further buying of silver will expel the gold from the United States treasury, and from this country, which is a silly proposition. It has no foundation whatever in fact, or in the experience of those who have watched the course of events in the past.

Hoping that you will continue to battle as you have done in the past, namely, for the right, I am sincerely your friend and well-wisher.
JAY COOKE.

We believe many persons honestly and conscientiously opposed bimetallicism this year, who, if they will continue to be honest with themselves, will be found with those fighting for humanity during the year we are just about to enter upon.

A debased currency may deprive some one of a little. An exalted currency shakes the entire fabric of commerce and sweeps away the business and fortunes of thousands. Under a gold standard the products of labor bring so little nominally, that borrowers cannot meet their promises to banking institutions. The bankers are unable to pay depositors, and we have against the effects of the gold standard, which was first forced upon us.

CORRESPONDENCE.

IRVINE.

Deputy Sheriff Thos. Richardson arrested "Buck" Babb for shooting Jas. C. Collins at Happy Top, this county, last Sunday. It appears that Babb was making a chance in the public road which Collins objected. It is reported that they have had difficulties before this. Collins was shot in the arm and in the breast. It is thought his wounds will prove fatal. Babb has not been able to walk for several years, the result of rheumatism. When Deputy Richardson started to town with Babb they were followed some distance by some of Collins' friends, but no actual violence was resorted to take Babb from the Sheriff.

Christmas has been unusually gay. There have been marriages, engagements, Christmas trees, Christmas suppers, etc., all over the county. One of the most pleasant little affairs was given at the Mt. The participants were Misses Mary Benjamin, Bertie White, Lela Lyle, Mary Jacobs, Myrtle Williams, Lila Snowden, Katie Smith, Sallie McAfee, Grace Smith, Grace Hargis, Mary Miller, Julie Cockill, Florence Smith, Masters George Williams, Harry Cockill, Plessa Lilly, Joe Wagers.

NEW YORK FASHIONS.

Evening Dresses, Styles in Making, Round or Square Necks, Sleeves, Sleeves and Answers.

With Christmas and New Year entertainments close at hand, evening dresses become a matter of importance, and all purposes and tastes may be suitably met by materials varying in price from 10 cents a yard up to \$25.

The least expensive dresses are of cotton organdy in pretty floral stripes, beginning at 10 cents and ending at 45 cents, the appropriate lining being satin and made with a full round waist, very short sleeves, a wide "crush" belt or satin sash; the dress is far beyond the expenditure. White or colored tulle, down, a soft, silky fabric, is very attractive, quite wide and only \$1 per yard, and the diminished width of skirts, and smaller size of sleeves, make a perceptible difference in expense. Another popular material for evening wear is drap d'ete in white or pearl, 44-inches wide and \$1.50 per yard. Skirts of this fabric are made with either satin or velvet ribbon, and for a tall, slender person, three graduated rows of either garniture at the lower edge, and a second circle about half way up prevent an appearance of stiffness in the skirt. Tulle silks, gauze, or chiffon over satin are all fashionable, and skirts of handsome

materials may open at the front over an elegant silk and have necktie, or side panels arranged on the same principal break the possible monotony of a plain skirt.

NECKS ARE HIGH AND LOW

Square or round, according to fancy, both enjoying equal favor; with a square neck, however, flowers across the left shoulder are a pretty ornamentation. Pointed velvet or satin belts have been revived, and with a high necked waist, collar and belt should match Fauch Fion jackets are very fashionable evening waists, and alternate rows (sleeves) of white or colored satin and velvet insertion having an edge at both sides form a handsome jacket, which can easily be made at home. The insertion should also be put around the edge and armholes as a finish.

LOUISVILLE TOBACCO MARKET.

PUBLISHED BY GLOVER & DEBETTS, LOUISVILLE TOBACCO WAREHOUSE.

Sales on our market for the week just closed amount to 2947 hids., with receipts for the same period 2175 hids. Sales on our market since January 1st, amount to 165,749 hids. Sales of the crop of 1895 on our market to this date amount to 151,877 hids.

Sales this week included 1750 hids. of new burley and the quality in the main is unusually common being deficient in substance and dingy in color. A good many sales were made at prices ranging from \$10 to \$12 per hundred but the market did not show any improvement whatever over the prices of the previous week. There is reason to hope that after the sales are resumed in January that we will have a more active market. There is no doubt the entire buying trade will then be ready to take hold of the new crop.

Gladness Comes

With a better understanding of the transient nature of the many physical ills, which vanish before prophetic, gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge, that so many forms of sickness are due to any actual disease, but simply to a constipated condition of the system, which the pleasant laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere respected so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, laxatives, or other remedies are then not needed. If afflicted with any actual disease, one should be commended to the most skillful physicians, but if in need of a laxative, one should have the best, and with the fewest ailments, everywhere. The California Fig Syrup Co. only and sold by all reputable druggists.

Others have found health, vigor and vitality in Hood's Sarsaparilla, and it is now his power to help you also. Why not try it?

A tired stomach is very much like a sprained ankle. If you suffer from any of the ailments in any of the above paragraphs, it is tired. It needs crutch. We must restore it of its work for a time, or until it is restored to its natural strength. To do it successfully, we must use a food which is already digested outside of the body, and which will aid the digestion of other foods that may be taken with it. Such a food is the Shaker Digestive Cordial.

The Shakers have utilized the digestive principles present in plants for the manufacture of the article, and its success has been truly phenomenal. You can try it for the nominal sum of 10 cents, as sample bottles are sold by all druggists at this price.

Laxo is the best medicine for children. Doctors recommended it in place of Castor Oil.

A foul breath is one of the greatest afflictions that a man or woman can have. An affliction not only to themselves, but to those around them. A foul breath is a great discomfiter of affection. It would probably be worse so if people fully realized just what bad breath means. Bad breath is one of the symptoms of constipation. Some of the other symptoms are sour stomach, loss of appetite, sick and bilious headaches, dizziness, heartburn and distress after eating. These things are indications. They lead to dyspepsia and worse things. All start with constipation, and constipation is incurable because it can be cured—cured easily, quickly and permanently, by the use of Dr. Pierce's Pleasant Pellets. They give to nature the little help which she needs. There is no case of biliousness, constipation, indigestion, or any of the other troubles of the night—nearly breathing better than these little "Pellets" will not cure.

Send 25 cents in one cent stamps to The Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1000s page "Common Sense Medical Advice," profusely illustrated.

GEO. W. RILEY
Of Shelbyville, Ky., Recommends Wright's Celery Capsules. Shelbyville, Ky., May 26, '96. To Wright Medical Co., Col., O.
Gents—I have purchased a box of Wright's Celery Capsules from G. M. Middleton, druggist, and used them for some time. I feel like I have constituted and found that they gave me immediate relief every time. I think it an excellent remedy.
Yours very truly,
GEO. W. RILEY
